

# HOW CLEAN IS YOUR CLEAN?

## ORKIN CANADA'S DISINFECTION SERVICES HAVE YOUR BACK.

As many businesses are reopening or resuming full operations, it is vital that yours can welcome customers and employees back into a safe environment. There are many products to choose from, but how do you distinguish which ones are the best at eliminating the unseen threat of germs and pathogens?

### CLEAN VS. DISINFECTED

Not all 'cleans' are created equal, and understanding the variations is imperative. Clean, sanitized, disinfected and sterilized are not all synonymous.

<b>CLEAN</b> Removes some germs by ridding surfaces of dirt and grime	<b>SANITIZE</b> Reduces germs on surfaces	<b>DISINFECT</b> Kills 99.999% of bacteria, fungi and viruses	<b>STERILIZE</b> Kills and removes all life forms via a heat process
--	--	--	---

While an important task, simply cleaning is not enough to eliminate germs. This must be balanced with regular disinfection, especially in high-traffic areas of your business.

### ORKIN CANADA'S DISINFECTION SERVICE OPTIONS

Orkin Canada's commercial disinfection services were created to help your business achieve the highest level of hygiene. For you, this means peace of mind knowing that you are doing everything you can to slow the spread of COVID-19 and other infectious diseases to put both customers and employees at ease.

Our disinfection product, VitalOxide™, is both quick acting and effective, providing 100% disinfection of hard, non-porous surfaces in as little as 15 minutes. **Orkin Canada's disinfectant product is:**

- ✓ **Approved by Health Canada for use against SARS-CoV-2, the virus that causes COVID-19**
- ✓ **Eco-friendly with the lowest EPA toxicity rating**
- ✓ **Proven 100% effectiveness against many viruses and bacteria**

## WE OFFER TWO OPPORTUNITIES TO HELP YOUR OPERATIONS RUN SMOOTHLY:

**Orkin® VitalClean™ Service** is our full-service option and ideal if your facility does not have the staff to perform full disinfecting duties on an ongoing basis. Expert Orkin Canada technicians arrive and complete the entire process, so you can focus on business as usual.

**Orkin® VitalClean™ 360 Training and Supplies** is the perfect solution if you have a team in place to handle the disinfection process. This program properly trains your staff and equips them with our proven products and supplies to manage maintenance.

Our VitalClean™ services have helped thousands of businesses operate safely during the pandemic, and now we'd like to help you. On top of pest control and disinfection, Orkin Canada also offers professional-grade PPE, should you need help stocking up on these critical supplies.

**Implementing a disinfection system can seem overwhelming — especially when your business is focused on reopening. Call today to learn more about how Orkin Canada can help your business thrive again.**
